### IN SOFT QUALITY OF LINEN FOR AN ALL-BLACK COSTUME

Model That Would Make Up Well in Any Light Color, Preferably Pale Green.

Linen is made in such delightfully soft qualities this summer, that they adapt themselves well to fine tucks such as are made at the top of this skirt. The number of colors suited to a summer dress are many, but

for coolness in appearance, nothing is better than pale green, of which this dress is made.

The front panel is in place embroidery; it may either be laid over linen or left transparent. The bodice is unlined, and is cut off at waist and sewn to a band to which also the skirt is attached.

Tucks are made on the shoulders, and a panel of embroidery is carried down front. The sleeves are composed of bands of embroidery, and fine tucks.

Hat of white spotted muslin with frill of muslin falling from the brim, roses and leaves form the trimming.

Materials required for the dress: 6 1/2 yards 42 inches wide, 1 1/2 yards embroidery 18 inches wide.

### A Jewelry Novelty.

Happy indeed is the girl who owns one of the new lock watches, as this is a silver dollar, that is the latest fancy in jewelry.

The uninitiated will not know that these watches are about but what they seem, jeweled or enameled lockets worn on a thin gold chain. Yet they are good time pieces, put up in a truly convenient and artistic form.

### TO RENOVATE THE PARASOL.

Much May Be Done by Clever Use of Design in Soutache Braiding.

If you have a parasol that is too good to throw away, yet not quite nice enough to carry, cover the top with a close design in soutache braiding. There is a decided fancy for such parasols this season, and the braiding can be used with advantage on either silk or linen tops. The work is easy, after the design has been carefully stamped.

Select a pattern that is continuous, as the only hard part of braiding is to finish off the ends. Therefore there should be as few as possible.

An easy way to do this braiding is to open the parasol, fix it firmly in a block or hold of some sort and work with both hands. Take tiny stitches on the right side and not too large on the wrong, as they will be unsightly if the parasol is not refitted.

## STATE CAPITAL NOTES

### Burial Association Illegal.

According to an official opinion furnished the state insurance department by Assistant Attorney General Chas. G. Ravelle, numerous burial associations doing business in this state are operating in violation of the insurance laws. The matter was referred to the attorney general's department several days ago by State Insurance Superintendent John Kennish, who holds to the same views expressed by Mr. Ravelle.

Seemingly, these associations, which are scattered all over the state and growing rapidly, are operated on the same general plan. An association is formed by some agent, usually an undertaker, or some one acting for an undertaking firm, without the formality of being incorporated.

An undertaker, known as the "official undertaker," is elected secretary and treasurer. Upon the payment of certain dues the member, at death, is entitled to a burial by the "official undertaker" at a cost not to exceed \$100. These organizations have no lodges or hall and, hence, under the insurance laws, can not be classed as benevolent, scientific or religious organizations, such as are exempt from the rigors of the insurance laws when they do a fraternal insurance business.

Under the ruling of the attorney general's department, the prosecuting attorney of each county in which one of these organizations is located, may proceed against it forthwith for doing business in violation of the insurance laws of the state.

The Missouri National Guard is to be equipped with an aero detachment within the next few days. The National Guard of Massachusetts has been under advisement a similar undertaking, but Missouri has beaten the New England state to the prize and will be the first commonwealth in the Union to so equip its national guard.

Adj. Gen. Frank M. Rumbold issued an order to this effect before leaving Jefferson City to attend the international rifle match at Camp Perry, Ohio.

The Missouri aero detachment will become a part of the signal corps service and will be attached to Company A, Signal Corps, St. Louis. General order No. 19 directs the commanding general of the Missouri National Guard, Gen. Harvey C. Clark, to organize an aero detachment and to accept 15 men who have expressed a desire to enlist for this service.

### Bank Bureau in Want.

It seems settled now that the state banking department is going to be pretty badly crippled for the want of funds before another legislature can pass a relief bill. Relief is not likely before February or March, 1911. By that time the deficiency in the department will have reached at least \$25,000, if not more.

There is a deficiency now of about \$2,200. The fees are not sufficient to defray the expenses of the department. As the law stands the fees must support the department.

State Bank Commissioner John M. Swanger said that he anticipates a shortage by the last of December, 1910, of between \$20,000 and \$25,000. He said that the only show of relief before the meeting of the legislature in 1911 will be for the employees of the department to make some arrangements for having their salaries discounted. He has informed Gov. Hadley of the situation and September 1 the bank examiners will be called here, when a conference will be held with the governor.

Acting Gov. Jacob F. Gmelich issued the following military commissions to officers of Wenworth Military academy at Lexington: D. Mead, lieutenant colonel and commandant; Fred A. Day, captain and professor; B. W. Tilman, captain and adjutant; J. J. Skinner, captain and quartermaster; W. W. Anderson, captain and commissary; G. W. Fredenall, captain and surgeon.

### May Voted Women's Law.

The law, passed at the last session of the legislature, regulating the hours of employment of female workers in restaurants, laundries, mercantile establishments and shops, it was discovered at Jefferson City, contained a flaw, which, it is believed, will make it null and void.

The bill was introduced in the house by Representative Busche, of St. Louis, and, after its passage there, went to the senate, which amended the bill, so as to except November and December from its provisions.

With these amendments attached, it was returned to the house, where it was enrolled without action on the senate's amendments, and without the incorporation of the amendments in the bill.

The act was intended to prohibit the employment of females between 9 p. m. and 5 a. m., and to limit the number of hours they are employed to fifty-four hours a week.

Governor Hadley's attention was directed to this error in the measure by Senator Cooper, of Kansas City, after Claude E. Long, of the secretary of state's office, carefully had gone over the bill. The governor, however, approved the bill, and it was supposed to have been passed regularly.

This discovery may prove fatal to the enforcement of the law, which already has been considered in some quarters as unconstitutional.

We shall see real flying when some one hangs up a record and asks the Wright brothers to beat it.

## WILL LEAVE JOHNNY AT HOME

Next Time Mother Visits Grandfather Youngster Is Not Likely to Accompany Her.

"I think the mother of a six-year-old boy should have a pension to make up to her for the mental agony she suffers," said just such a mother. "I took Johnny to his paternal grandfather's last week, and believe he has cut us out of grandfather's will. Of course, we send him to Sunday school and we both attend church, but we do not ask a blessing at the table, nor do we have family prayers. Grandfather does, and it happened that the morning after we arrived Johnny was excused from the table and went out in the yard to play. Grandfather led the way into the sitting room and we all knelt down in prayer. Imagine my horror to see Johnny's little face peering curiously through the blinds and hear him sing out: 'Hey, in there, what kind of a game is that you're playing? Ain't you the rotten bunch not to let me in on it.' I arose and softly whispered to him to run on and play, and he sang out: 'You're it, mamma, you're it; make a home run.' Now, what can you do with a small boy, anyway? I can never explain matters to his grandfather."

### PAINT BEAUTY.

Assured of durability, the next thought in painting is beauty—the complete aim being durable beauty, or beautiful durability.

National Lead Company here again offer you the co-operation of their paint experts—this time in the line of color schemes, artistic, harmonious and appropriate. You have only to write National Lead Company, 1902 Trinity Building, New York City, for "Houseowners' Painting Outfit No. 49," and you will promptly receive what is really a complete guide to painting, including a book of color schemes for either exterior or interior painting (as you may request), a book of specifications, and also an instrument for detecting adulteration in paint materials. This outfit is sent free, and, to say the least, is well worth writing for.

### A Classic in Kentucky.

They have been telling this story down in the Blue Grass so long that the Louisville Courier-Journal says it is regarded as a classic:

"Majah," announced the colonel, "I'll bet I've sweat no less than 17 gallons!"

"Begging your pardon, kunnel," returned the major, desisting from a long libation, "gentlemen don't sweat; they perspire. Horses sweat."

"Well, then," returned the now irritated colonel, glaring at the calm and contented critic of his diction, "by gad, sah, I'm a hoss!"

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.
